Use it on every auction if you desire. In the event these conditions are not met, your lots will be relisted and sold to pay your balance.

Please use your Zip Code. Have mailed by Zip Code only and got mail through. Please notify us of any change of address so you may receive your catalogs regularly.

Notes for the Auction:

Another catalogue is ready to be mailed and what happens? The postage rate is raised again. Meanwhile the postal service is as bad as ever, and, if anything, slower than before. Also the price of paper, envelopes, two by twos, etc. keep soaring. I don't know what is going to happen to us poor mail order people who depend on the mail service and use paper in our business. But on the other hand we have lots of company. Traveling salesmen who need gas to call on their customers is one category that immediately comes to mind. Also the coin dealers who take tables at coin shows. First they need gas to get to the shows and after

they get to a show, they find that the public also has problems in getting enough gas to attend the show.

Oh, well, things could be worse. At least we don't live in Lower Slobavia.

The recent gyrations of the silver market has surely raised problems in mail bid sales. In the last auction, nearly all the silver pieces were won by bidders whose bid sheets were received during the last three days of the sale. Usually the earliest bidders have the advantage, especially in case of tie bids and the first bid received gets the lot. All this went out the window in the last sale however. In this sale the top bids of the early bidders were good solid bids at the time they submitted the bids and should have won many of the lots. When the price of silver skyrocketed, the late bidders highest bid easily beat the early bidders. By the time the bid sheets were processed, the winning bids on the silver coins were again left far below the selling price of silver.

Another problem occurs in the current catalog. When I wrote up the US section in this catalog, the lowest priced US dime was 30¢ and is so listed for estimated prices. The last Coin World received has the lowest advertised price of a dime as 55¢. As we have already printed this section of the catalog we had to go ahead with it. As a result, any one bidding 30¢ on any dime in this sale probably will have a near zero chance of winning the lot.

As many of you already know, we now have a booth at the Raleigh Flea Market every Saturday and Sunday at the State Fair Grounds.

We are always glad to meet any of our customers who happen to drop by whenever they are in the vicinity.

Best wishes to all,
Clarence, Katherine and Dan Symes
